

# The Bullship Log

Monthly Meeting  
Harlem Township Hall  
Monday - November 21 @ 7:00 p.m.

## Commodore's Corner

Ahoy all

We are fast approaching our annual Christmas gathering (details elsewhere)

Totally new this year, we are meeting at Thunder Bay Grille on our normal meeting night, the third Monday in December. But there is no need to pay in advance or decide among a limited selection. All a la carte.

We've also dropped the long running "Chinese Nautical Auction" so our "entertainment" will be conversation among our members. Do mingle freely. Arrive early - stay late.

At the October meeting we rather quickly nominated new officers for 2017. Some arm twisting was involved, but in the end we got a great slate, including many who remain on the board as officers to keep RYC running.

Commodore - Brian Black  
Vice Commodore - Bruce Lombardo  
Yeoperson - John Kochanski remains on  
Treasurer - Ray Olson remains on  
Flotilla - Bill Siegworth remains on  
Signal Officer - Marty O'Connor remains on  
Activities Captain - Linda O'Connor (and help)

What's really different is that Allen Penticoff is not on the above list. At all. But not gone. Ruth and I are slowly moving to our new home in Brodhead, Wisconsin and don't know how much time we can continue to commit to the club. But we won't be gone. In fact, we have proposal for a Spring flotilla we hope can generate some enthusiasm.

At this November meeting Allen will have a slide show/presentation on sailor friendly Carlyle Lake in south central Illinois.

In the late 1990s and early 2000s we had flotillas there regularly. I campaigned in five of the Carlyle Lake Yacht Clubs "Great Races" around Halloween time and had some early season sailing there as well. Still remembering a "thunder-snow" we were out in on the lake. Spring there is generally far warmer than here. But ya never know.

Alas, most of the members who had participated in sailing on Carlyle Lake are no longer among us. Time for some new folks with RYC and NWSA to learn about this great sailing lake. I will present a program at the meeting explaining why this is a great sailing destination. Drive time from Rockford is about 4-5 hours.

For those who can't make the meeting, I'll write up an account and promotion of the flotilla in a future Bullship Log once we pick a date for the event.
